PROFESSIONAL SUMMARY

Product marketer with 4+ years driving growth for complex products, currently completing an MS in Data Science & AI (May 2026). I translate technical capabilities into clear positioning and compelling campaigns that resonate with both technical and non-technical audiences. Proven ability to manage large budgets, collaborate cross-functionally, and deliver measurable results in highly regulated and competitive markets.

PROFESSIONAL EXPERIENCE

Blue Cross and Blue Shield of Kansas | Remote

Product Marketing Strategist | February 2024 – Present

- Managed \$2.24M Medicare marketing budget across AEP, OEP, and always-on campaigns, optimizing allocation across Medicare Advantage, Medicare Supplement, and Part D to maximize enrollment and retention
- Supported statewide Medicare campaigns that drove 150,000+ member enrollment growth over two years through coordinated broker education, member communications, and multi-channel marketing (print, email, web, agent channels)
- Partnered cross-functionally with sales, product, compliance, and operations teams to translate complex benefit structures and regulatory requirements into clear, accessible messaging for diverse audiences including brokers, members, and prospects
- Managed external agency relationships from brief through delivery, ensuring campaigns aligned with GTM strategy, brand standards, and compliance requirements while meeting aggressive timelines during critical enrollment periods

Mekorma | Remote

Marketing Coordinator / Website Manager | May 2022 – May 2023

- Drove 40% increase in marketing-sourced demo requests through systematic optimization of landing pages, nurture flows, and webinar follow-up sequences for B2B SaaS payments product
- Improved lead form conversion on key product pages by 30% through strategic copy, layout, and CTA refinements informed by user behavior analytics and A/B testing
- Planned and executed 4 webinars annually, creating positioning, content, and promotional assets that established the company as a trusted authority in payments automation
- Owned corporate website and CRM integrations, using analytics to improve navigation, optimize lead capture, and streamline handoff between marketing and sales

Cohen-Esrey | Merriam, KS

Marketing Coordinator | July 2021 – May 2022

- Served as sole marketing lead for national portfolio of 80+ multifamily communities, reporting directly to CTO and owning strategy, execution, and performance tracking across brand, campaigns, and collateral
- Built centralized marketing programs across email, web, social, and listing platforms, creating scalable frameworks and reusable assets that local teams deployed to drive tours and resident engagement
- Analyzed performance data across 80+ properties to identify trends and inform messaging updates, creative priorities, and channel recommendations aligned with leasing goals

Verizon | Blue Springs, MO

Solutions Specialist | May 2017 – July 2021

- Translated complex technical product details into clear, practical explanations that helped customers understand options and make confident purchasing decisions
- Leveraged Salesforce CRM to document customer needs and track follow-ups, contributing to more targeted outreach and improved retention among existing customers

EDUCATION

Master of Science in Data Science & Artificial Intelligence | May 2026 (Expected)

University of Central Missouri | Warrensburg, MO

- Hands-on graduate program covering machine learning, deep learning (CNNs, RNNs, Transformers), natural language processing, and data visualization using Python, TensorFlow, and modern ML frameworks
- Completed projects include implementing neural networks from scratch (NumPy), building systems comparing traditional ML vs. LLM approaches, and developing CNN architectures for image classification

Bachelor of Science in Business Administration – Marketing | May 2021

Park University | Parkville, MO

- Coursework in Digital Marketing, Content Strategy, Social Media Marketing, Advertising, Graphic Design, and HTML

TECHNICAL SKILLS

Product Marketing & Go-to-Market

Campaign strategy and planning • Go-to-market for complex/regulated products • Product launches and positioning • Competitive analysis and market research • Messaging and positioning • Sales enablement (one-pagers, FAQs, battle cards) • Customer research and VOC programs • Long- and short-form copywriting • Segmentation and persona development • Customer journey mapping • Lifecycle and retention programs • A/B testing and experimentation • Budget management (\$2M+) and vendor coordination • Cross-functional collaboration with product, sales, and engineering • Performance analytics and reporting • Stakeholder management

AI/ML & Data Science

Python for data analysis and ML (pandas, NumPy, scikit-learn) • Deep learning frameworks (TensorFlow, PyTorch, Keras) • Neural networks and deep learning architectures (CNNs, RNNs, Transformers) • Natural language processing and LLM prompting/evaluation • Model evaluation and performance optimization • API integration and data pipelines • SQL/NoSQL databases (MongoDB) • Statistical analysis and hypothesis testing • Data visualization (Matplotlib, Seaborn) • Git/GitHub version control • Jupyter notebooks • Technical documentation and developer education

Marketing Tools & Platforms

HubSpot (marketing automation and CRM) • Google Analytics and Adobe Analytics • Salesforce CRM • Adobe Creative Suite, Figma, and Canva • Workfront (project management) • Web content management systems • Email marketing and nurture automation • Landing page optimization • SEO and SEM fundamentals
