PROFESSIONAL SUMMARY

Data-driven Product Marketing Manager bridging 4+ years of B2B/B2C GTM experience with deep technical fluency in machine learning and AI (MS Data Science & AI candidate). Proven ability to translate complex model architectures into compelling positioning, sales enablement, and scalable growth campaigns. Experienced in orchestrating cross-functional launches in highly regulated environments, leveraging Python, data analytics, and robust experimentation to drive product adoption.

PROFESSIONAL EXPERIENCE

Blue Cross and Blue Shield of Kansas | Remote

Product Marketing Strategist | February 2024 – Present

- Directed the end-to-end Go-To-Market (GTM) strategy for Medicare enrollment periods and always-on initiatives, optimizing a \$2.24M budget across digital, member, and broker channels to drive acquisition.
- Developed comprehensive product positioning and sales enablement materials (plan explainers, FAQs, enrollment guidance), equipping broker networks (1500+ total brokers) and digital channels to successfully sell complex plans in a highly regulated environment.
- Led cross-functional alignment across Product, Sales, Operations, and Compliance teams to ensure operational readiness and messaging consistency for high-stakes launches, decreasing review-to-launch turnaround time from 14 to 10 days.
- Conducted messaging optimization across the customer journey to simplify complex plan selection, successfully reducing avoidable customer support escalation by 10% during peak enrollment periods.
- Managed strategic agency partnerships from creative brief to execution, implementing workflow optimizations that improved on-time project delivery from 80% to 95%.

Mekorma | Remote

Marketing Coordinator / Website Manager | May 2022 – May 2023

- Drove a 40% increase in marketing-sourced demo requests for a complex B2B SaaS payments product by building targeted nurture flows and optimizing landing page experiences.
- Spearheaded product messaging and experimentation, utilizing behavioral analytics and A/B testing to refine value propositions and improve key product page conversion rates by 30%.
- Acted as a product evangelist, developing core positioning and content for quarterly webinars that strengthened category authority and accelerated mid-funnel pipeline engagement.
- Optimized the marketing-to-sales pipeline by managing CRM integrations and lead measurement, ensuring seamless lead capture and high-intent handoffs to the sales team.

Cohen-Esrey | Merriam, KS

Marketing Coordinator | July 2021 – May 2022

- Scaled GTM execution across 80+ distinct markets, acting as the primary marketing lead for brand strategy, multi-channel campaign performance, and localized messaging.
- Developed scalable growth frameworks across email, web, and social channels, enabling distributed teams to consistently drive customer engagement and product adoption (tours).
- Conducted segmented performance analysis to uncover behavioral trends, directly informing messaging strategy and creative priorities to align with overarching revenue and leasing goals.

Verizon | Blue Springs, MO

Solutions Specialist | May 2017 – July 2021

- Acted as the frontline technical translator, distilling complex consumer technology into clear, value-driven positioning that accelerated the sales cycle and increased customer purchasing confidence.
- Captured and analyzed Voice of Customer (VoC) insights utilizing Salesforce CRM to map customer needs, proactively manage sales objections, and drive targeted outreach that improved lifecycle retention.

EDUCATION

Master of Science in Data Science & Artificial Intelligence | May 2026 (Expected)

University of Central Missouri | Warrensburg, MO

- Hands-on graduate program covering machine learning, deep learning (CNNs, RNNs, Transformers), natural language processing, and data visualization using Python, TensorFlow, and modern ML frameworks.

Bachelor of Science in Business Administration – Marketing | May 2021

Park University | Parkville, MO

- Coursework in Digital Marketing, Content Strategy, Social Media Marketing, Advertising, Graphic Design, and HTML.

AI PRODUCT FLUENCY (SELECTED GRADUATE WORK)

Steam Backlog & Goals Tracker | Python, GraphQL, MongoDB, LLMs

- Full-Stack AI Product: Architected a goal-setting application that translates natural language into structured database queries, helping users overcome decision fatigue by turning Steam library data into actionable gaming goals.
- Natural Language to Database Engine: Built a custom translation layer using Llama 3 and Few-Shot Prompting to convert unstructured user intent (e.g., "Show me short RPGs") into executable MongoDB aggregation pipelines.
- API & System Design: Engineered a flexible GraphQL API (Ariadne) to handle nested data relationships and implemented a conversational state machine in Streamlit to manage multi-turn user flows and prevent AI hallucinations.

Neural Networks From Scratch | Python, NumPy, Linear Algebra

- Built neural network fundamentals from first principles to strengthen ability to translate model behavior, limitations, and tuning concepts into clear, customer-facing messaging.

ML vs. LLM Approach Comparison | Python, TensorFlow, GenAI, Benchmarking

- Defined decision framework (accuracy, latency, cost, maintainability) to determine when traditional ML vs. LLM approaches are the better product choice and documented tradeoffs for stakeholder communication.

TECHNICAL SKILLS

AI/ML & Data Science:

Python (pandas, NumPy, scikit-learn), TensorFlow, PyTorch, Keras, NLP, LLM Prompting & Evaluation, SQL, MongoDB, Data Visualization (Matplotlib), Git/GitHub, APIs

Product Marketing:

Go-To-Market (GTM) Strategy, Positioning & Messaging, Product Launches, Competitive Research, Sales Enablement, Lifecycle & Retention, A/B Testing, Cross-Functional Leadership

Tools & Platforms:

HubSpot, Google Analytics, Adobe Analytics, Salesforce, Figma, Workfront, Microsoft Teams
